Cellphone: +84987 555 306
Info: I am economics student and I love coding very much. When I was a online marketing, I spend almost all of my freetime to learing coding on internet and offline course.
I'm hard working, eager to learn. I think that my best quality is the fact that I'm a fast learner.

EXPERIENCE

+ JULY 2016: NODEJS JS BLOG

Nodejs is very powerful and amazing. It's very fast, tons of components, easily to create API and Realtime application via socket.IO. I spend 3 months self-study on youtube then finally I want joined a ofline course to get more knowledge about that.

- This is private blog, it's a small demonstrates what can I do with nodejs.
    - WEB TECHNOLOGIES USED

	#
SERVER	Source: Heroku, DB server:Mlab, Redis server – VPS
Web server	Nodejs
Database	Mongodb
Css	Css3, bootstrap
js	Jquery
Framework	Express, Angular 1
Web structure	RESTFUL
Responsive	Yes, use bootstrap
Packages for my project	• Socket.io (*Chat room), • Bower (*Css manager), • Redis (*User for manage session), • q (*promise), • ejs (*Template engine),PM2
